## Front Matter

Preface

Acknowledgements

## 1 Vectors, the Dot Product, and Matrices

Vectors

The Dot Product

Matrices

Getting Started with Sage

Going Further with the Basic Objects

## 2 Linear Equations

Three Geometric Models

Solving Systems

Elimination using Matrices

Going Further with Elimination

Matrix Algebra

Matrix Inverses

The  $LU$  Decomposition

Permutation Matrices

Matrix Algebra: Going

# Math 2500: Linear Algebra

Front Matter

1 Vectors, the Dot Product, and Matrices

2 Linear Equations

3 Vector Spaces and Subspaces

4 Orthogonality

5 Determinants

6 Eigendata and the Singular Value decomposition
